About This Game

What is it?

Melordandek is a puzzle game. Its main concept is to find a path to walk on every tiles inside a map, and to walk on them only a single time.

It contains:

- More than 200 levels
- An increasing difficulty
- An intermittent scenario throughout the game
- A black futuristic universe

Story

You are with Dnasack, a maverick and a computer viruses expert from the Infernal Horde. He managed to penetrate into the capital of the White Union.

He is accompanied by two warriors, a weapon expert and a magic expert which are his servants.

They have a mission: one by one, they must defeat the city's computer defenses while searching for the final target: the base housing the military strategy super-processor.

The super-processor's take will be a guarantee of victory for the Infernal Horde when the great assault will happen.

Title: Melordandek

Developer:
Hanged Bunny Studio
Publisher:
Hanged Bunny Studio
Release Date: 22 Dec, 2018

b4d347fde0

Minimum:

Requires a 64-bit processor and operating system

OS: 7, 8, 10

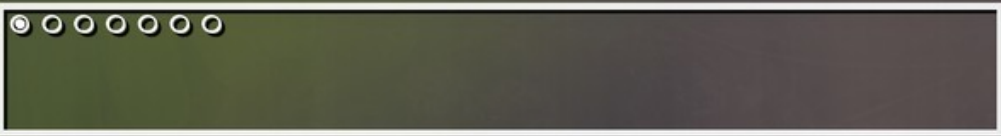

Processor: Intel i3

Memory: 2 GB RAM

Storage: 700 MB available space

English,French

R77 Incoming! (June 04, 2015):

R77... A KILLER UPDATE!

What's Happening...

- Versus Season 15 is live now! Jump into the mix for some awesome rewards!
- Mix it up in PVP with Rocket and Groot, Blade, and Squirrel Girl!
- The Iso-8 Brotherhood is at it again! Check out the event while it lasts!

What Got Better...

- Bullseye's "Contract Killer" no longer fires excessively.
- Invisibility tiles now grant invisibility once unlocked. Thanks, Sue!. **Roast the developers in the Roast Club:**

Welcome to the Roast Club. The first rule of Roast Club: you DO NOT talk about Roast Club. The second rule of Roast Club is: actually for now you can talk about it, we're still short on members. Third rule of Roast Club: only two stars to a Roast. Fourth rule: one of them is a DEVELOPER.

You see, we were challenged by Sir Clearwater [HERE](#)... and we do accept the challenge!

So if you feel like Roasting someone talented and famous... that's NOT the place. But if you want to vocalize your vile thoughts about mothers, fathers, sons and all possible relatives of the humble developers, turn on Oh...Sir! The Hollywood Roast and enter the Roast Club! **First meeting starts tomorrow, 13th of June, at 5 PM GMT+2!**

To play with us, look for [VileLemon](#) - one of the designers and an experienced bare-chested master of insults.

. **ALL SOUNDTRACKS - game playlist:**

The Foreign:

The Foreign is Russian Synthwave project from Syberia. who summoned some of the best emerging Synthwave artists from US, France, Italy and Russia to contribute their productions and vocals to the music, thus creating a sonic bond in their respective scene worldwide.

PriusAnSich

<https://soundcloud.com/priusansich>

Prius An Sich is electronic project created in 2008 by Sergei Parfenov from Saratov, Russia. Its philosophy is based on romantic futurism in all its forms and manifestations from 80s retrofuturism to modern ideas about the future, utopia and anti-utopia. Prius An Sich supposed to combine such genres as electronica, ambient, synthwave, retrowave, industrial, cyberpunk, folk music and other musical images and currents that could reflect the multidimensionality of the future world.
